EXPERIENCE

Longhart Studios – Photographer

Kansas City, MO • March 2018 – Present

Worked independently and with the photography team to create content for companies in the greater Kansas City area. A few clients range from Odimo, LLC, Alchemy Coffee, and Carved. By focusing on the view of the client and mixing in my expertise, I am able to create some of the best possible work for each company allowing for both the photography and cinematography to align with their vision.

Unsplash – Stock Photography Work

Topeka, KS • March 2017 – Present

Throughout my career as a photographer, I have focused on sharing my best work with everyone possible. By utilizing Unsplash.com, my photos have been seen over 25 million times and used for many different projects across the board. While traveling and staying local, I have shared my views of the world through my work with everyone who has seen it.

Self Taught Photography

Worldwide • January 2014 – Present

I've traveled all over the world focusing on getting the best shots when it comes to my photography. From the USA to Sweden, I've taken many pictures that have become a major focus on Unsplash and my website.

PROJECTS

Odimo, LLC

By sharing my talents around the Kansas City area, I was asked to take headshots of the employees at the Odimo architecture firm. This project helped me understand what it is like to work with a client and see their vision through.

The Monument of the West

A first hand account of my trip to the hidden gem Monument Rock. Alongside stunning photography & video also comes the story behind the unknown city of stone in the middle of flyover country.

The Story of a Photograph

A film about the unique and intriguing stories behind a photograph which shares why a photo is worth a thousand words. This short film also shares my talents in storytelling, editing, color grading, film, and photography.
